Attachments: CES Draft Class VI Permit (CH)(DA).docx

Hi Calvin, I think the permit is in good shape. Just a few comments/questions in the attached file. I'd say go ahead and send to ORC (both Desean and Janet). Although I don't think you necessarily need to wait for their review before getting something back to Cadmus. One question I had that is not included is whether some of the timeframes you noted you wanted to change are actually documented in the regulations. I assume not, but if they are then we would not change them. Let me know if you have any questions or wish to discuss. Thanks! David

Subject: CES

Hi David,

Attached are my comments on the draft CES permit. Please add any of yours to the attachment. I will then have Cadmus address our comments.

I plan to reach out to Rebecca for an update on issues of FA, ESA, NHPA, and subsidence next week. I can also ask for their thoughts on the arrangement of a public hearing.

Please let me know if you have any questions or want to discuss any of these.

Thanks,
Calvin
